Capt. Schmittberger Confesses Before Lexow Committee.

Force is Rotten.

MERCENARY MOTIVES.

These Alone Actuated Officers in Their Actions.

New York, Dec. 23 -- Maximilian C. Schmittberger, captain of police and Bills for the Construction of Two Lines | now in command of the Tenderloin district, made a confession before the Lexow committee yesterday to the effect that the entire police system of New York City, with the exception of committee on Indian affairs of Repre- | Superintendent Byrnes and a few others, was rotten to the core; that blackmail and bribery, extortion and corruption were common crimes in and operate a railway through the the department and that mercenary methods alone actuated his fellow This is the bill which permits officers. His charges implicated Inthe road to construct a line spectors Williams and McAyoy, ex-Inspector Steers, Police Commissioners James B. Martin and John G. Sheehan, Captains Price, Gastliu and Martens, ex-Captain John Gunner and Wardmen Duniap, Robert Vail and James Cannon

Without question it was the most important day in the history of the Lexow committee. Schmittberger's confession is prolific of not only sensation, but of evidence which con-firms and verifies what have been heretofore considered the most exaggerated cases of police and official corruption. It deals with more individual cases; it shows the criminality that has prevailed in the police department Captain Schmittberger is under in-

senate committee. Yesterday he took advantage of an offer of immunity from punishment held out to him by Counsel Goff and agreed to make a clean breast of it. "The pillars of the church are fallen." su d he on the witness stand. "and I deem it due my conscience, my wife and my children, to tell what I know." Meanwhile dark circles crept under his eyes, his face assumed a sickly pallor, an air of utter weariness and dejection posface assumed a sickly patter, an air of utter weariness and dejection possessed him, and he appeared, as he was in extreme mental torture and court Plaster Cases, was, in extreme mental torture and Napkin Bings. Sneers and sarcastic laughter instead answered the acknowledgment of his weariness when at last Counsel Goff permitted him to vacate the witness stand.

The city is not turbulent with excitement, as it was just a week ago, on the occasion of Captain Creaden's confession. Instead, an atmosphere of suppressed indignation prevails. In official circles no attempt is made in contradiction or derogation of Captain country without an armed excert, and | everywhere is heard the comment; "It could not have been worse; it must Senator O'Connor denied that he

had asserted as has been alleged, that Mr. Goff had buildozed and intimidated witnesses before the Lexow. committee. In speaking of the proposed continuation of the commission, O'Connor said: "The police department is rotten to the very foundation and should be the last to oppose an investigation. That there discord between Counsel Goff and the committees, however, is a conceded fact; and this dissension is over the question as to why Superintendnt Byrnes and other have not been called to testify is not denied. It is also believed that a misunderstanding exists between Dr. Parkhurst and Mr. Goff with relation to the propriety of anumoning Superintendent Byrnes. With reference to this matter Counsel Goff's assistant, Mr. Jerome, said that it was one thing to put a man in the witness chair and another to get sufficient proof against h m to attain any good He thought however, that Superintendent Byrnes and Commissioner Martin would be called next

Fate of the Canal Bill.

WASHINGTON, Dec. 29 .- The fate of the Nicaragua canal bill which the Democrats, on the assembling of congress, believed they would be able to pass through both houses, is in very great doubt.
